Virtual Training Flyer

June 2021

Regions 5, 6, 7

Volunteers of America®

Dear Providers,

As our world has changed, so has the way we will provide trainings. For the time being, we will be offering virtual trainings. In order to participate in these trainings you will need a smart device such as a computer, smartphone, or iPad (tablet) and an internet connection. **If you intend to use a smartphone or tablet, please download the zoom app.** In order to receive your certificate, you must register and login with your first and last name.

As we navigate the new way of doing things, we ask for your patience and understanding. The new registration process steps are outlined below:

1. Complete registration form (please ensure that your email address is printed and legible)-**Deadline to register for trainings are the Wednesday the week prior to a training.**
2. If slots are available, the director will receive a confirmation letter stating classes and participants names.
3. The director will receive links to register, survey and any handouts for the training.
4. The director will forward the link only to the participants they indicated on the form.
5. The participant will then register and receive a link to attend the training.
6. The director will also receive a link for the evaluation survey and any handouts included for the training. The evaluation survey must be completed after the training by participants.
7. The certificates will be e-mailed to the director within two weeks, except for Health and Safety and Medication. These will be mailed by the trainer to the center.

***Each participant must sign into their own device with the link they are sent after being registered. This is the only way we have a record of the name that goes on the certificate.**

***Please be willing to participate and engage in these trainings.**

***Please have a quiet area designated, so that you can see and hear what the trainer is presenting.**

Let’s Focus on STEAM

Teachers will learn a variety of activities to engage children in positive play for Early Childhood classrooms. Young children enjoy solving problems and exploring the world through science, technology, engineering, arts and math. We will discuss fun, easy ways to introduce STEAM to preschoolers. STEAM learning can support children’s early math development and many other important skills. *This training will enhance Teachers CLASS scores in “Facilitation of Learning & Development” and “Concept Development.”*
